To,
The Director,

Re: Development of School Web Portals for Edify Partner Schools to Enhance E-Learning Programs and Communications

Dear Sir/Madam,

Happy new year from Edify. Last year, we started supporting our partner schools by conducting teacher trainings on education technology and eLearning. We also conducted a survey in which we noticed that most of the schools did not have online presence. Edify has reached a partnership with a team from the ICT Teachers Association of Uganda (ITAU) to develop web portals for our partner schools at a subsidized cost.

A pool of educational digital content developed by teachers in the various schools under the National Association of Christian Schools – Uganda (NACSU) will be easily accessible through a joint eLearning platform at www.nacsu.org, which will also be connected to each of the school web portals. This is vital as a response to the challenges posed by COVID19; to continuously aid homeschooling for our learners still at home, integrate technology in the learning processes and during times when schools are closed. The web portals will also enhance communication between the schools' parents, students and other stakeholders.

Edify will contribute towards the initial webhosting server fees, and schools will be required to contribute UGX 300,000 each to the developers (ITAU) to cater for the domain name registration, website design and maintenance in the first year. The developers will in addition train a specified teacher on how to post updates on behalf of the school whenever need arises. In the preceding years, your school is expected to have identified a competent person (trained by ITAU) to manage the website which would reduce the cost to only web hosting fees of less than 100,000 UGX per annum. The funds are paid to account details in the ATTACHMENT.

In case of any further inquiries, please don't hesitate to contact us on glugoloobi@edify.org or 0770 555 505 (Godfrey - Edify) or (0706 060 740 Rogers – ITAU)

Yours Sincerely,

Godfrey Lugoloobi
Edify Uganda, Country Director
